

Discussing Your Treatment Options

There are several hepatitis C (Hep C) treatments that you and your healthcare provider can consider. It's important to understand their key differences, benefits, and risks, and choose one that fits your specific health profile and individual needs.

Some questions to ask your healthcare provider:

Your Hep C History

- If I just got diagnosed with Hep C, will treatment work for me? _____

- If I have cirrhosis, can I still get Hep C treatment? _____

- Can treatments work if I've had Hep C for a long time? _____

- What if I failed Hep C treatment in the past? _____

Hep C Treatments

- Can Hep C treatments work for me? _____

- What are the possible side effects of Hep C treatments? _____

- What if I have liver damage? Can Hep C treatments work? _____

- How might my other medical conditions affect Hep C treatment? _____

- What does "viral load" mean? _____

- How might different Hep C treatments affect my liver? _____

- How will I know I'm cured of Hep C? _____

Insurance Coverage and Financial Support

- How do I find out if my insurance covers Hep C treatments? _____
- What if I don't have insurance for Hep C treatments? _____
- What other resources are available to help me afford my Hep C treatment? _____

Your Routine

- What if I miss a dose of my Hep C treatment? _____
- How many pills a day will I have to take on Hep C treatments? _____
- How long will I need to take my Hep C treatment? _____
- Do any Hep C treatments have food requirements or restrictions? _____

Your Other Medicines

- Do Hep C treatments have effects on the other medicines I take? _____
- If I'm on medication-assisted treatment for addiction, how can I be treated for Hep C? _____

This list is just a starting point. Your healthcare provider will have the information you need to make the right treatment decision together.
